

HAMPSHIRE & ISLE OF WIGHT General Practice OPEL SUMMARY - JULY 2026

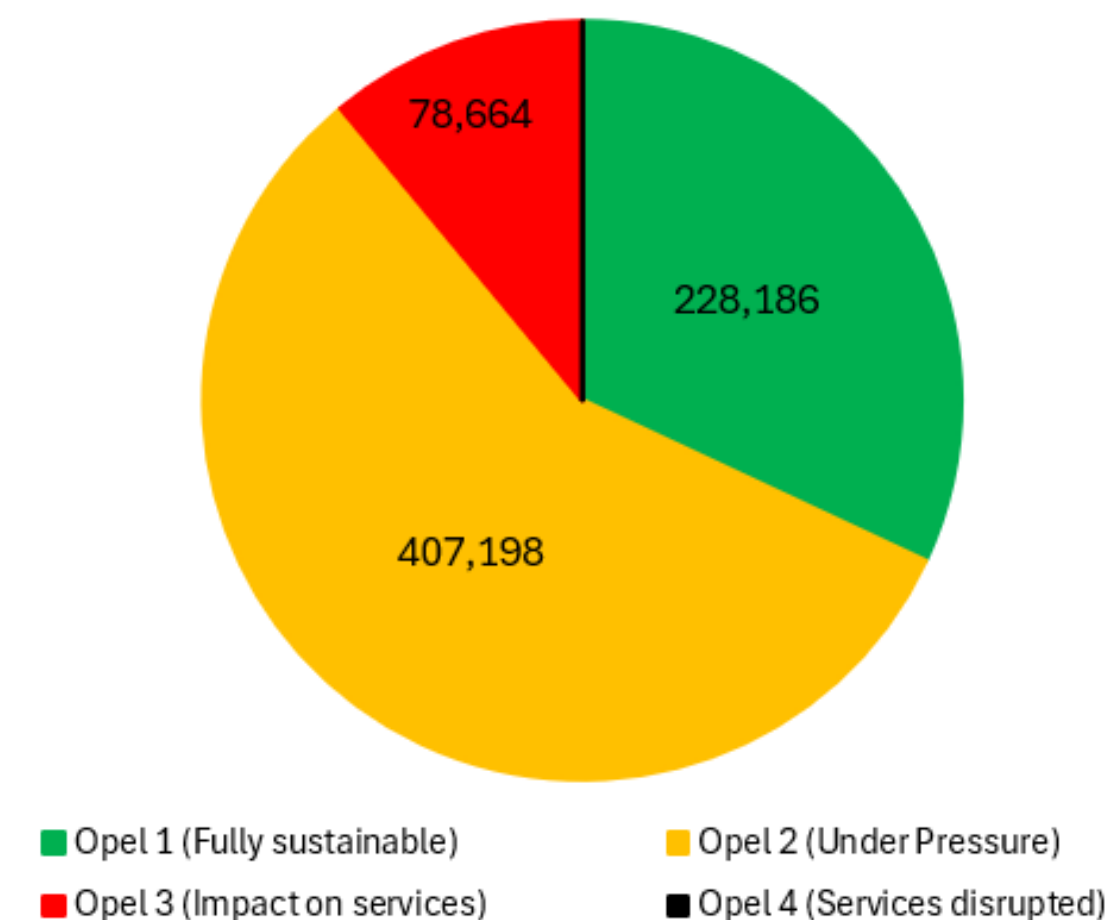

Weekly Returns and OPEL Declarations Count

OPEL Rating for July 2026

Average Patient Count by OPEL Declaration

Stakeholder Update: Hampshire & Isle of Wight Primary Care Pressures.

Across July, practices reported persistently high patient demand, particularly through online consultations, with little evidence of the usual summer lull. Annual leave, sickness and recruitment difficulties reduced capacity, lengthened routine appointment waits and increased complaints and pressure on staff wellbeing. Heat, technology issues and limited locum cover added further strain.
